

Share subscription with Qt Group's option rights 2016

Currently the share subscription price for the option rights 2016 is 4,84 € per share.

The share subscription period for option rights 2016 will begin on 19 December 2019 and ends on 31 December 2022.

The option holders can subscribe the shares during the subscription period by giving the payment and subscription details to their own bank.

After the subscription and paying the subscription price according to the payment instructions the account operator will take care of the required entries in option rights holder book-entry account, whereby the options used for subscription will be removed and new shares of Qt Group shares will be entered.

The subscribed shares are not immediately available for selling on the stock exchange, but the new shares will first be entered into the Trade Register and after that the shares will be applied for listing on the stock exchange as a so-called supplementary lot. Therefore, a stock option holder should be aware that the subscribed share would only be quoted after several weeks from the share subscription.

Shares will establish shareholders rights as of the date of share registration.
