EU Declaration of Conformity

Maps to: CRA Article 28 and Annex V. Annex VII, point 7, requires a copy of the EU DoC in the technical documentation.

Document control

Field	Value
Owner	Mika Pääsi, General Counsel
Version	1.0
Issued	30th September 2026
Status	[.....] Draft [X] Approved [....] Superseded
Supersedes	N/A - Qt 6.12 LTS is the first Qt LTS line for which conformity is declared; no predecessor binder or DoC exists

1. Product

Name: Qt Framework

Type / model / version: Qt 6.12 LTS including all maintenance releases of that line (6.12.x). For details, see “Product Boundary and Remote Data Processing Solutions”.

Identification: (release tag, build hash unique identifier): v6.12.0, sha-1 ef25002ed292b132d1ed3246bfcee1d24a9cd966

2. Manufacturer

Name: The Qt Company Oy

Address: Miestentie 7, FI-02150 Espoo, Finland

Contact: info@qt.io · https://www.qt.io

3. Authorised representative (if applicable)

Not applicable. The manufacturer is established in the Union (Finland).

4. Statement of sole responsibility

This Declaration of Conformity is issued under the sole responsibility of the manufacturer named in section 2.

5. Object of the declaration

The object of the declaration described above is in conformity with the relevant Union harmonisation legislation:

- **Regulation (EU) 2024/2847** of the European Parliament and of the Council of 23 October 2024 on horizontal cybersecurity requirements for products with digital elements (the Cyber Resilience Act).

6. References to relevant harmonised standards or other technical specifications applied

Reference	Title	Edition	Applied in full / in part	Notes
-	-	-	-	None applied — see statement below

No harmonised standards under the CRA had been referenced in the Official Journal of the European Union at the date of this declaration. Conformity has been demonstrated directly against the essential requirements set out in Annex I of Regulation (EU) 2024/2847.

See 99-appendices/standards-applied.md for the full list and rationale.

7. Conformity assessment procedure

Module A — Internal Production Control (CRA Annex VIII, Part I).

No notified body has been involved in the conformity assessment. The classification analysis confirming that the product is in the **Default category** (i.e. not listed in Annex III or Annex IV of the CRA) is recorded in 02-classification/classification-analysis.md.

8. Additional information

The support period for this version ends on **2031-09-30** (five years from the Qt 6.12.0 placing-on-the-market date), in accordance with the support period policy at 09-support-period/support-policy.md.

Coordinated vulnerability disclosure is handled under the Qt Group [Coordinated Vulnerability Disclosure Policy](#) and [QUIP 15](#); see 08-vulnerability-handling/cvd-policy.md.

The SBOM is not published at a public URL. SBOM documents in SPDX and CycloneDX format are delivered as part of every Qt installation; see 06-sbom/sbom-policy.md and <https://doc.qt.io/qt-6.12/sbom.html>.

Version-supersession: not applicable — this is the first DoC issued for Qt Framework under the CRA (see Document control above).

Language versions: English is the authoritative language of this declaration. See the language matrix at 01-product/information-to-users.md for the languages in which the accompanying user information is published. Manufacturer provides, on request, a translation of this declaration into the official language or languages required by the Member State in which the product is placed on the market or made available on the market.

9. Signature

Signed for and on behalf of The Qt Company Oy:

Place: Espoo, Finland **Date:** 30th September 2026

Role	Name	Signature
General Counsel, The Qt Company Oy	Mika Pääsi	Signed by:  5C4D3BACD0D648A

DoC retention

Per Article 13(13) CRA, this DoC is retained for at least 10 years from the date the product was placed on the market, or for the duration of the support period, whichever is longer.

POM_DATE = 30th September 2026 (2026-09-30)

Retention end date	2036-09-30 (= max(POM_DATE + 10 years, SUPPORT_END); the 10-year floor governs here, since support ends only 5 years after placing on the market — see 11-organisational/retention-and-integrity.md)
--------------------	--

Public availability

The CRA requires the EU DoC, or a simplified version with a hyperlink to the full DoC, to accompany the product. State here how this is delivered to users: <https://www.qt.io/terms-conditions/declarations-of-conformity/qt6.12>
